Extra service hole provided for oil temp sensor (1/8 PT)

Anti G force oil pan	F20C S2000	Price 45,000yen	11200-F20-001
Anti G force oil pan	K20A DC5/EP3	Price 52,000yen	11200-K20-001

Feature

- Designed to help prevent oil from moving around under extreme conditions.
Preventing drops in oil pressure and air from mixing with the oil.
- The main baffle plate is removable. Making it easy to flush out foreign bodies from every hole and corner when overhauling.
- Extra service hole provided. For thoughts requiring an additional oil temp sensor, etc. (1/8PT)
- The TODA logo to show that this is not your STD product.
