S2000/F20C I section connecting-rod (2000cc)

I Section connecting-rod for F20C S2000/2000cc

New TODA RACING I-Section Connecting-rods (AP1/F20C 84mm STD Stroke).
A replacement for the STD rod, as used in our racing engines. Using the I-Section gives increased rigidity, lighter weight and higher reliability especially at higher revolutions. The connecting-rods are produced in-house and along with ARP fasteners the highest quality is assured.

Weight standard 650 g / TODA 553 g

Center of small end to center of big end length 153mm (based on standard)

Piston Pin diameter 23mm (based on standard / it can be used with standard piston pin)

I Section Connecting-Rod

13210-F20-ST0-I F20C S2000 (2000cc/84mm stroke) List price 46,000yen x4

Recommend to use with TODA high compression piston kit.

PISTON KIT F20C S2000/2000cc

High Compression Spec

87.00mm (C/R 12.1:1) 13010-F20-000

87.50mm (C/R 12.3:1) 13020-F20-000

Ultra High Compression Spec for Racing Use only (release soon)

87.00mm (C/R 12.9:1) 13010-F20-0H0

87.50mm (C/R 13.0:1) 13020-F20-0H0
