(50mm throttle diameter/ 63mm trumpet)	17100-3SG-506	300,000 Yen	Made to order product
(50mm throttle diameter/ 33mm trumpet)	17100-3SG-503	300,000 Yen	Made to order product

TODA has finally released after many requests from customers the SXE10 Sports injection kit. Supplied with 50mm diameter throttle bodies, can be used to good effect with TODA's 2.2L Kit.

- Fuel injectors are not provided. Designed to use STD shape SXE10 injectors: After market higher fuel flow rate injectors required.
- * Note due to the many different tuning requirements TODA can not help in specify injectors.
- Stock air flow meter can not be used with this kit. After market ECU required, as well as a modified wire harness.
- TODA Racing only provides the kit that is shown in the picture.
The customer has to have knowledge of setting up a high performance multi bodied injection kit.
