

## What's new !!

## AE101/AE111 Straight Trumpet

For AE101

For AE111

Toda Racing is pleased to announce the release of a straight tapered trumpet for the AE101 & AE111. The original trumpet is curved, greatly restricting power.

Improvements in power output of 5PS and more (vary with engine spec) have been confirmed with bench testing (Toda Racing).

We highly recommend using this product when used in conjunction with high lift cams and high comp pistons.

AE101 & AE111 throttle bodies differ, requiring separate kits for said engines.

#### ■ AE101 Trumpet

(Tip diameter  $\phi$  86mm/ fitment's face inside diameter  $\phi$  48mm)

Length of trumpet 30mm/17342-000-030 6,500yen/each

Length of trumpet 55mm/17342-000-055 6,500yen/each

#### ■ AE101 trumpet retainer KIT

17342-000-000 3,000yen/each

#### ■ AE111 Trumpet

(Tip diameter  $\phi$  86mm/ fitment's face inside diameter  $\phi$  50mm)

Length of trumpet 33mm/17342-050-033 9,000yen/each

Length of trumpet 63mm/17342-050-063 9,000yen/each

Length of trumpet 88mm/17342-050-090 9,000yen/each

#### ■ AE111 trumpet retainer KIT

17342-000-001 3,000yen/each
