

What's new !!

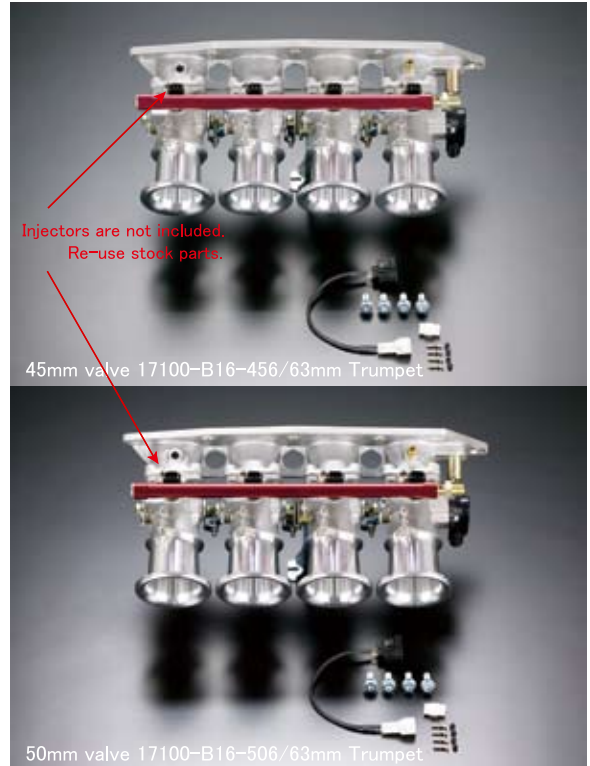

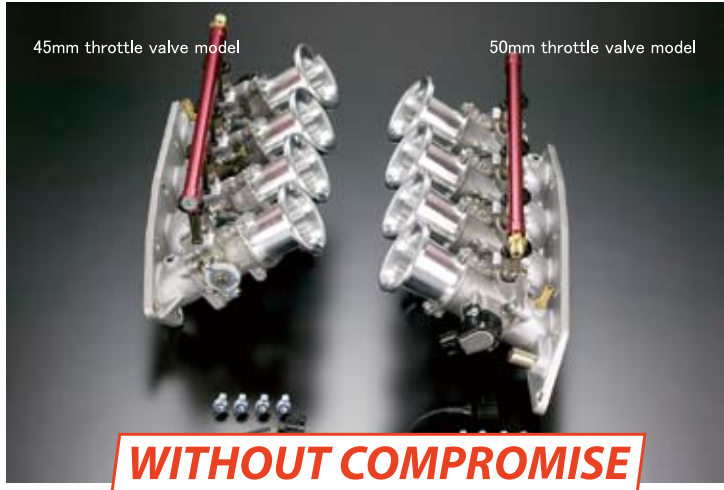

HONDA B16A/B16B/B18C-R Sports Injection KIT

A new version of Toda Racings popular B16A/B16B/B18C-R sports injection kit.

Improved intake runner length and the option of either 45 or 50mm diameter throttle bodies.

Please choose size according to the purpose.

Manifold and throttle bodies supplied as matched set.

B16A/B16B/B18C-R 45mm & 50mm SPORTS INJECTION KIT

TODA Racings new in house designed and manufactured individual throttle bodies, designed to replace the stock injection system.

Toda's sports injection kit shows marked improvements in torque, power and throttle response.

Fine tuning of the induction system brings most gains in the lower to mid ranges of the power band with slightly less gains at the top end.

Compared to an individual throttle you also gain a smoother idle when used with large cams.

※TODA throttle body is based on the Toyota AE101/AE111 manifold bolt patterns.

■ Super response

- The improvement of the accelerator response is due to a reduction in volume of air within the manifold.

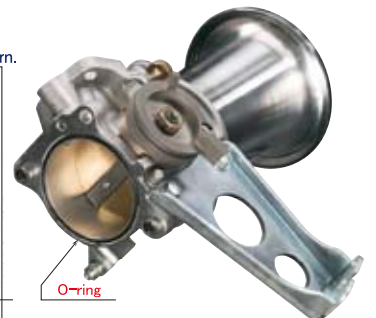

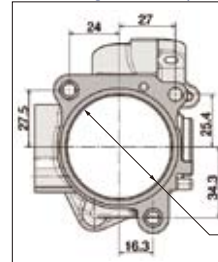

■ Increased power

- •Each intake is the same length.
- Straight induction ports.
- Individual throttle bodies are individually smaller in volume but collectively larger in volume.
- Airflow bench tested trumpet.

■ Bottom & mid range
Torque increase

- Prevent the cylinder aspirated interference in intake manifold. This is due to the independent throttle bodies and more effective injector positioning.

Manifold flange face bolt pattern.

Throttle valve diameter ϕ 50mm & ϕ 45mm available.

B16A/B16B/B18C-R ϕ 45mm Sports Injection KIT / Trumpet	33mm 17100-B16-453	Price 260,000yen
B16A/B16B/B18C-R ϕ 45mm Sports Injection KIT / Trumpet	63mm 17100-B16-456	Price 260,000yen 1600cc/1800cc standard spec
B16A/B16B/B18C-R ϕ 45mm Sports Injection KIT / Trumpet	88mm 17100-B16-458	Price 260,000yen
B16A/B16B/B18C-R ϕ 50mm Sports Injection KIT / Trumpet	33mm 17100-B16-503	Price 270,000yen
B16A/B16B/B18C-R ϕ 50mm Sports Injection KIT / Trumpet	63mm 17100-B16-506	Price 270,000yen 2000cc standard spec
B16A/B16B/B18C-R ϕ 50mm Sports Injection KIT / Trumpet	88mm 17100-B16-508	Price 270,000yen

■ The stock injector can be used.

■ TODA sports injection kit can not be operated with a STD ECU.

■ The manifold bolt pattern is based on the AE101/111 throttle body; upgrading stock size AE101/111 throttles is possible.

■ TODA sports injection kits have already been successful in SUPER-GT, Time Trials and other race series.
