TOYOTA86/SUBARU BRZ 68mm Big Single Throttle Body

“TODA Big Single Throttle Body FA20” newly added to the line up joining the TODA big throttle family.

Increasing the diameter of the throttle and in combination with a tapered entrance helps to increase the amount of air the engine can breathe, giving improved performance.

Dimensions are 68mm up from 65mm for the valve diameter and the tapered entrance starting at a diameter of 72mm for all maximum size.

Moreover, this throttle is accel by wire system, then the throttle-shaft is not given any thinner design , since it should be prevented to warp by aging. Instead,throttle diameter will be to max enlarging.
