

What's new!!

S07A (JW5) Big Single Throttle

WITHOUT COMPROMISE

S07A (JW5) Big Single Throttle

16400-S07-A00 75,000 JPY

*Throttle body gasket included

Point!

The dimensions of throttle valve is **41mm** up from standard **38mm** for the valve diameter.

Point!

Tapered entrance starting at a diameter of **46.5mm** up from standard **45mm** helps to increase the amount of air.

Increasing the diameter of the throttle and in combination with a tapered entrance helps to increase the amount of air the engine can breathe, giving improved performance. All parts are new. No trade-in is required so you get more performance and a new throttle assembly. By using with TODA light weight flywheel and light weight front pulley kit, you will experience a more sportier S660.
